## PROFILE

With over 4+ years in Visual Design, Web Design and UI/UX development, I craft one off visually impactful and user centric web experiences!

## EMPLOYMENT

▶ **Allianz Partners, Sep 2019 – Present**

**UI/UX Developer**

Developing unique user experiences for our partners — my specific team partners includes Delta Airlines, Hawaiian Airlines, Alaska Airlines, Hotwire and Car Rentals.

### Tasks include:

- Working closely in an agile team environment to enhance and develop new features, bringing mock-ups to production while improving user experience for both desktop and mobile solutions
- Develop interactive design solutions to help push messaging and accessibility
- While managing my projects, I also coordinate with a QA team to insure products are launched and rendering as expected across browsers.

▶ **Education Advisory Board, June 2015 – Present**

**Web Designer**

Hand coding micro-sites, landing pages and email campaigns using HTML5, CSS3, Sass and the latest user experience and accessibility techniques.

### Tasks included:

- Designs, develops, troubleshoots and maintains web applications
- Working along side a team of art directors, project managers and copywriters to ensure all web pages are on target and on brand
- Assisting with version control and with pushing code through staging environments

▶ **ATA Digital, June 2012 – June 2015**

**Senior Designer**

Work alongside a team of web developers, account executives, and copywriters in a fast-paced environment to plan and execute national digital marketing campaigns that raise millions of dollars for nonprofits.

### Tasks included:

- Followed clients brand guidelines to complete projects
- Multi-tasked in a fast-paced environment
- Worked in a team setting
- Communicated effectively with senior leadership
